**FRIDAY 19th of June**

- *“Lombardi Agro” Family Farm - pig farm, field and fodder crops, agricultural machinery*

The company was founded in 2005 and is the object of fattening pigs meat. Number of employees is quite small (maximum 5) from Macin area.

It seats up to 3,000 heads by generation and loft can be populated with up to three generations per year.

The company is privately held and its founding EU funds were accessed through pre-accession programs.

The farm has 2 owners who are associated, moreover they have crops and feeding of pigs with this production. They have variety of cereals, legumes, and store wheat, barley, corn and soya beans.

The interesting fact is that they are experimenting to feed the pigs with pellet made of „alphaalpha” with equipment from Czech Republic.

The farm is fully automated and it gets 50% of European funds.

- *“Adam Agrorent” Family Farm*  
*- cereals production and trade*

- The family farm was founded in 1997 and works in an area of 643 ha conventional system.
- Main activity is the field crops production: wheat, corn, rape, soybeans, barley.
- It is entirely private capital and currently operates 21 employees from Macin area.
- So far not reached any project co-financing.
- The farm has its own machines with working the land.
- In 2014, son of farmer (agricultural engineer, graduated Faculty of Agriculture in 2014), has opened his own business, respectively, a shop of pieces for agricultural machines, as well as, he sale of agriculture machinery, second-hand, reconditioned.

- **“Macin Wine Center“- vineyards, grape processing, wine production, agroturism**

SC Macin Wine Center Ltd. was established in 2002, having as main activity winemaking, bottling and marketing. Wine is a member of the Professional Association of Dobrogea Hills (Member of ONIV) and since its inception has implemented food safety management system based on HACCP principles.

The winery is a Romanian - Belorussian partnership.

The company has 300 ha of vines, half of the surface area being positioned in the area Cerna, in the area located between "Macin Mountains National Park" and "Hill Forest Reserve Chervant", the other half being on Carcaliu hill, in an area which is protected in the European network - site "Natura 2000".

The cultivated varieties are Aligoté, Feteasca Regala, Feteasca White, Sauvignon Blanc, Muscat Ottonel, Tămâioasă Romanian, Italian Riesling, Chardonnay, Merlot, Pinot Noir, Cabernet Sauvignon, Petit Verdot, Shiraz, Black Feteasca, Viognier.

Newly planted vine is the result of fruitful collaboration with renowned nurseries in Italy and France, using both surfaces for the establishment and for grapes, cutting-edge technologies. Throughout the production process seeks compliance with European technology.

During the tasting we received sufficient knowledge about: serving wine (the order of serving, serving temperature, etc..), identifying varieties of wine, choosing the wine according to the kind of food that you eat, differentiate wines according to their characteristics and typicity.

- Processing and storage capacity wine center is about 2,300 tons. Wines produced here are supplied both as bottled (0,75 l glass bottles and packaging type bag-in-box) and loose, both domestic and foreign markets.
